

The Standard maintains a first class Job Department and is equipped with up-to-date machinery and type to handle every class of Commercial and Society Printing with Promptitude, Accuracy, and Taste, at reasonable prices.

An Independent Newspaper, circulating throughout the Western Bow Valley. It is the news and advertising medium of the following points in the Bow Valley: Ardenode, Baintree, Carseland, Chancellor, Cheadle, Dalemead, Dalroy, Irricana, Keoma, Langdon, Namaka, Nightingale, Standard, Strathmore, Tudor, etc. Official organ of M. D. Keoma, No. 249.

Month and year of expiration is shown with your address. Thus, May 22, indicates that your subscription expires May 1922. Pay in advance. Postal regulations require this.

## Coming Events

\* Victorian Tea and Pantry Sale at the Oddfellows' Hall on Saturday, May 20th, under auspices G.W.V.A. Ladies Auxilliary. 10-5-u

Rev. J. H. Garden, B.A., of Tudor, will conduct both services in the Union Church next Sunday. Subject: "Influence of mothers," and "The Christ of To-Day."

—o—  
To-night, Gloria Swanson in "Her Great Moment." Next Wednesday, "Three Live Ghosts." Dance after the show. Admission including dance, Adults 75c. Children 25c. 10-5-0

A meeting of the U-Go-I-Go Girls' Baseball Club will be held at the home of Miss Doris Dobson on Thursday, May 11th. The baseball to be played this season will be discussed. All members are requested to attend.

The Smithmore Womens Institute meets at the home of Mrs. F. O. Boortz on Wednesday, May 17th. Subject. The value of a household science training.

Officials of the Women's Institute branch are now engaged in preparing itinerary for the coming season. Large numbers of requests have come in for extension work in the way of short courses, and many societies are planning to take advantage of the course, if possible.

## No. 3

Noah was the first advertiser on record. He advertised that the good ship "Ark" would sail on a certain date on an indefinite voyage, and that those who wished to prolong their existence would be advised to book passages.

The advertising was not altogether successful. It was not believed by all. Noah, however, sailed on schedule time, with a good cargo of animals, but his human passengers were mostly all relatives, and probably deadheads.

Since Noah's time many a good thing has been advertised, and on various occasions the so called wise ones have scoffed and disbelieved, for their own undoing. The readers of Antedivians are not Antedivians. They read the ads., and if your message contains something of benefit to them they will deal with you. If you are one of those "business" men who do not advertise, you had better start now before the flood comes and you go under.

## The Standard

**Mill Rate Same as Last Year**

It took till one o'clock in the morning for the Strathmore Town Council to get round the items of business on their agenda last Tuesday evening, and even at that some of the items were not disposed of.

The striking of the rate for the year

The striking of the rate for the year was the big question, and after all the final decision was to leave the mill rate same as last year, 70 for school, General 75, Special 10, and Special Debenture 3, making a total of 158 mills. The high mill rate is accounted for by the low assessment, the total assessment this year being only \$117,000. The highest assessment on any town lot is \$660, and the lowest

Proposals were made to lower the rate, which should bring in the sum of approximately \$20,000, but after prolonged discussion, it was felt that no reduction could safely be made.

During the course of the evening there was a heated spat between Councilor Anderson and the Mayor. A discussion on the amount of road work to be done this year was proceeding.

intermittently, an alder Mayor had recounted how on account of the bad road north within the town limit, he had damaged the chains on his car the previous evening, when Councillor Anderson interjected a remark addressed generally to the Town Policeman

Issued by Department of Agriculture

Conditions attending the spring crop are satisfactory in parts of the province according to the first official summary of conditions compiled from reports.

— 8 —

Returns of crop yields for 1921, ha

Returns of crop yields for 1921, have now been compiled by the agricultural department from reports given from 2111 threshing rigs in the province. While this includes, but only three-fourths of the threshing rigs in the province, the averages compiled from these returns give a good general indication of the average yields over the whole province for 1921. The returns from the 2111 machines give a total yield of all grains of 56,447,972 bushels. A comparison of the average yields of various grains for 1921 with the average yields for the ten years

Farmers of the Taber district who are included in the new irrigation scheme in that district are displaying keen interest in potato production and with the advent of irrigation, this promises to become an important feature of farm production in that district.

during the week that has just closed.

During the week that has just elapsed seeding operations have been in full swing throughout all the districts and the greater percentage of the wheat is now in the ground. Some farmers have completed their wheat seeding, but others with large acreage will be more than a week yet in getting all their wheat crop in.

The weather during the past week has been cold, with rain storms on the 2nd and 5th, the precipitation totaling a quarter-of-an-inch.

Help is comparatively scarce, and there is now none available locally, and the class of unemployed at present left in Calgary do not seem very anxious for farm work.

An observer coming to Strithmore

yesterday would certainly derive the impression that the people in this district were living up to the spirit of Arbor Day. All day long cars and teams were at the nursery at the Demonstration Farm, commencing to arrive before eight in the morning and being there till almost dark. Four or five of the farm staff were on the job all day lifting the trees and counting them into bundles.

There were eighty-five individual applications for trees, some coming for distances of thirty miles to take advantage of the Farm's offer. The number of trees available was 145,000, and these were practically all taken during the day.

Edmonton, Alta.—Pupils enrolled in Alberta public schools total 124,328, with 3,301 school districts operating and 5,320 teachers employed. There are 68 consolidated school districts. Eighty-six new districts were created last year and the school library branch of the Department of Education distributed 51,176 books among the various schools.

The local baseball season opens at Evening Day, May 24th. Nonstop.

The local baseball season opens on Empire Day, May 24th. Negotiations are in progress with a Calgary team to come down that day and play a double header with the locals. Manager Gray hopes to have the arrangements completed at an early date. The diamond is being fixed up for the season and the boys have already started to practice.

A dance will be held on the evening of Empire Day.

1

That splendid British Scots Guards, as they are today, looks back to the men of Charles I., as the elite of its regimental being. In 1645 Charles authorized the Earl of Argyll to raise a regiment to protect the recently plighted

colonists in Ireland. At the beginning. The regime birth in a troublesome fattened in glory on iron ever since. Its history is of Britain's wars, and history and a stirring through all the almost 36 have since rolled by, it h now and then that the

have languished at home-  
care. Their colors have  
the bullet-torn breeze of  
try, from Hull to Halifax.  
Britain has had a war, and  
intimates, that's a long way  
in the right direction. If  
with Wolfe at Quebec, it  
they were elsewhere.  
nailing down the blessing  
civilization with claymore  
bayonet, and altogether  
Guards has taken a giant  
ain's big and age-long task  
the world safe for democracy.

[illegible]

year included a Victoria Cross, 265 Distinguished Service Orders and 261 other rewards for gallantry.

It is the Scots Guards Band that has been the most recently interested in at this time. They were sent to Canada during the present summer, under the auspices of Canada's National Service Council. The band will have an opportunity of hearing one of the finest first tenors in the world. This band is itself entirely self-sufficient in its own right. It is old, and critics say it has never before been so good as it is now. It is under the leadership of Lieut. F. W. Wood, who has been a leading band leader among the world's great interpreters of music.

This tour was arranged for the benefit of the Great War Veterans' Association, and the band is expected to draw direct attention to the fine work of the Association. An important feature of the tour is the fact that it is under the direction of Dr. Charles Harris, one of the most distinguished conductors in the British Empire. The band's most important musical undertakings are worldwide in scope.

The band will arrive in Canada about May 1 on the Canadian Pacific line,

**American Agriculturists Want to Know More About Farming Conditions in Canada**  
(Special Correspondence by G. C. Porter, of Winnipeg)

Pargo, N.H.—In point of territory covered this is the most important immigration output maintained by the Dominion Government in the United States. Through this gateway streams "emigrants" from Kansas, Missouri, Arkansas, Oklahoma, Texas, Mississippi and Louisiana into the Canadian Northwest. F. H. Hewitt is the agent in charge for the Government here and at present his mail brings thirty-five letters daily equipping the farmers here for farm fruit and dairying prospects on the prairie and in British Columbia.

During the past three weeks I have reviewed the public States of Minnesota, North and South Dakota, Iowa, Nebraska, Kansas and Missouri. Not since 1915 have I found such interest in these Canadian.

I attended a Farmers' Institute at Coburg, Kan., recently. This is the extreme western part of the State. These "institutes" are informal gatherings of farmers where experts are brought from Agricultural Societies. Through Agent Hewitt, carrying his exhibits to many country fairs in Kansas, the farmers have very accurate knowledge of the conditions on the Canadian prairie. These people are not ignorant of the conditions of the Canadian prairie. These people are not ignorant of the conditions of the Canadian prairie.

"My case proved that when a man's stomach goes wrong, everything goes wrong with him. The first thing I noticed out of the way was loss of appetite and next, that no matter how exciting I ate, I was unable to have an attack of indigestion. I finally got so I couldn't walk a couple of blocks without having to stop and rest and I was so nervous that often I sat up in a chair all night long."

"Tartar has made a new man out of me, my stomach is as sound as a bell and I feel like all the time. I am a firm believer in Tartar because I know it delivers the goods."

Tartar is sold by all good druggists.

## Too Much Urst

Many Causes Advanced for Present Resistances in World

Opinions as to the cause of "unrest" so much in evidence vary quite as much as the numerous theories in which the numerous manifestos find some of the causes advanced are too much just, too much honest, too much lawlessness, too much law, too much restraint on the people, too little restraint on the little religion, too much preaching, too much unpopularity, too much laziness, and so on. It seems to be either too much or too little of one thing or another. The only thing on which nearly every body seems to agree is that there is too much unrest—Springfield, Illinois.

The Accommodating Farmer

A new expression, it is his first germ. He was determined not to neglect his personal appearance, something his hat, he said to the old veggie, "Would you get me a class?" A small smile will do.

The veggie hurried away, but soon returned carrying something under his coat. "I know what veggie means," he said. "I've brought you a whole lot."

The Ganges, India's most important river, is 1,257 miles long, and is navigable for a distance of 250 miles from the sea.

Historic Knife

The Canadian Museum recently received what is said to be the knife of the guillotine used in Paris during the French Revolution and the subsequent Reign of Terror and which served to decapitate Louis XVI, Marie Antoinette, Robespierre, and thousands of others. It was given to the museum from a Belgian collector. The relic is said to have been in the possession of the family of Samson the famous executioner of the French Revolution, for several generations.

## BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for the first time and has seen the results, she will find it difficult to equal them in keeping children well. The Tablets are a mild but thorough laxative which removes the bowels and eases the stomach, thus driving out constipation and infection, colds and simple fevers and making the mother's life easier. "Baby's Own Tablets," writes Dr. J. B. Kelly, M.D., of St. Louis, Mo., "I have used Baby's Own Tablets on the first day and have never without them in the house. They are a perfect remedy for constipation and I can safely recommend them to all mothers." The Tablets are sold by all druggists and are also sold by mail for 25 cents a box from The Baby's Own Tablets Co., Brockville, Ont.

The drug contained in the usual catarrh balm produces in the user intense or agonizing pain.

## Speed of the Tortoise

Takes Nearly Four Years to Travel One Mile

A professor at Wisconsin University in America has been playing a jolly game with tortoises. He has discovered, by letting loose 168 tortoises all labelled, that a tortoise takes four years all but a few days to cover a distance of one mile.

The professor also noticed that in a period of five months the 168 tortoises went a distance of 112 yards, thus making their average speed about two feet in one day.

Travelling at this rate, a tortoise starting from London would take nearly a century to reach Edinburgh.

A STUDY OF OLD AGE

It is always interesting and reveals the fact that the blood is largely thin and sticky in the circulating system of young folks. If you want to fill your blood with the first of youth, build up your strength, restore your nerves, just use Dr. Hamilton's Pills. This wonderful medicine is a grand system regulator. Keeps the bowels in perfect condition, keeps the body free of waste and impurities. For young and old the use of Dr. Hamilton's Pills is recommended. 25¢ at all druggists or The Cataractine Co., Hamilton, Ontario.

## Blocked Doorway at Hampton Court Opened

For 137 Years

After the back closed for 137 years, a blocked up doorway at Hampton Court Palace has been reopened. It connects Henry VIII's castle, the White Chamber, and the well-known Hampton Palace. Through it have passed Shakespeare, Charles I., Queen Elizabeth, Mary Queen of Scots, Oliver Cromwell, and a host of other historical personages. Each time a look around the world and across, passed through it on his way to the scaffold.

"Shakespeare's company performed plays in the Great Hall of Hampton Court Palace at Christmas, 1592, and the rehearsal took place in the White Chamber."

A feature of the "Hamlet Gallery" was a picture of the "White Man and Woman," brought by Martin Frobisher from America which is supposed to have given Shakespeare his first conception of Caliban.

The doorway was closed by King George II. In 1725, who had the gallery turned into a habitable room.

For years "Mother Graves' Worm Exterminator" has ranked as a reliable worm prevention and it always maintains its reputation.

A slower lark motor truck across points circuits and other travelling organizations.

Where, indeed

A Canadian who wants to know this country these days should first take a look around the world and decide where he could pitch his tent and be better off.

World is Like Japanese Lantern

Buiges Under Pressure of Sun and Moon

"Greenwich has apparently drifted as much as half a mile toward the equator in the last 18 years." This is a declaration by Prof. J. W. Evans, famous astronomer.

"Naples is one-third of a mile south of where it was 10 years ago," adds Prof. Evans, "and believe it or not, 1872 and 1912, Cambridge, Mass., moved 25 feet away from Greenwich, England."

Prof. Evans adds that experiments show that the earth bulges under the pull of the sun and moon. In an up and down movement of about 18 inches.

"The world is like a Japanese lantern," he says. "It tends to telescope if the poles are pressed toward each other stoutly, but resists pressure in other directions."

## Just Needed Studying

Clock Was All Right If You Understood it

The clearing of the big clock on the English House of Parliament reminds a story teller of his grand-father's clock, which he treasured very highly in his pioneer family.

The ancient in whose house it stands tells visitors that nobody in the household understands much about it except himself, though the clock, he insists, is a good time-keeper.

"It only wants studying a bit," he says, "and when the hands stand at 12 it strikes 2, and then I know it is twenty minutes to 1."

## Canada as a Dependency

Realization of Fact Means Better Citizenship Declares Eastern M.P.

Speaking to the Reform Club at Montreal, W. F. Carroll, M.P. for Cape Breton South and Richmond, decried the talk that Canada was a nation and insisted that she was the case even though we have all political and religious freedom. "We are not a nation," he said, "and the quicker we undeceive ourselves, the sooner we will become better Canadians. We are a dependency of the British crown. Nationalism implies the right to make treaties and settle our own differences. If you want proof that we are not a nation, look at the privy council. Not a bill becomes law until it is sanctioned by the King in the person of the Governor-General. He believed that nationalism would degenerate greater statesmen. In conclusion, Mr. Carroll said:

"I am not talking with a view to independence or with a view to severing our connection with the mother country."

In China are to be found in circulation, lumps of gold and silver bearing marks which show that they were first struck hundreds of years ago. In some they are square, oval or other shapes and they weigh anything up to one and a half pounds.

Badgers, symbolical of their name, are being supplied to many ships of the British navy.

## Local Hottings

**OF LOCAL INTEREST**  
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard, Phone 17 or 68

Meester E. W. Post and G. R. Watford of Redford, were in Strathmore on Monday evening.

District Deputy Grand Supt. Flan, Calgary, will pay his official visit to Strathmore Chapter, R.A.M. tomorrow evening, and it is expected that a large number of Calgary brethren will accompany him to Strathmore.

A local man was mugged in the sum of \$3.15 at Police Court last week on charges of using abusive language to another resident of the town. The charge was aggravated by his attempt to resist arrest, where the police were taking him to the cells.

Mr. O. G. Craig, Chandle, was taken to Calgary Holy Cross Hospital last week, and was operated on on Saturday. He is now doing as well as could be expected.

Arbor Day was observed locally as a bank and school holiday, but distribution of trees by the C.P.R. took place that day, there being a line-up of farmers with cars and teams all day waiting their turn. The trees distributed were mainly poplars and willows.

A fire alarm was turned in about 5 a.m. on Monday morning, but fortunately it turned out to be a slight, being confined to the chimney of Mr. Van Tighen's house on Third Street.

A son was born to Mr. and Mrs. John Sharp, Gleichen, recently.

Prof. W. J. Stephens, formerly principal of the Charolme Agricultural School, and latterly with the U.G.G. and the Calgary High School staff, has now taken up his duties in the department of agriculture as commissioner of field crops, and will assume the post formerly occupied by J. D. Smith, as superintendent of the seed and weed branch. Mr. Stephens is to give considerable attention to the matter of control, and also to the matter of new markets for seed grain and the encouragement of seed grain production in the province. Mr. Stephens has a farm at Nanika, having bought it several years ago from Mr. H. B. Wooster.

## Strathmore Hospital

At a meeting held May 15th, 1922, Hospital Board decided with much regret that unless a very good receipt regular and dependable financial support that they would be forced to close the Strathmore Hospital on May 20th.

The hospital was started through donations and the work of the public spirited citizens of Strathmore and the surrounding districts after the war and when the influenza epidemic made some such institution very desirable. The promoters believed that as soon as the Provincial Hospital Act could be administered and a proper district could be turned over and carried on under the Act, and be supported as far as necessary by taxation inside the district long-term.

It is believed by those familiar with the work of the hospital, that it has been a blessing to the community and the action was district council by Dr. Girvin, and served by the hospital. It is very strongly felt that the Hospital has made a most creditable record as compared with others in Alberta and that there is every reason for carrying on; but this cannot be done without the lacking and some financial support from a permanent source.

The hospital is essentially a community and district undertaking, and until some better form of Hospital organization can be achieved it has been suggested that the New Valley and Kenna Municipalities unite with the Strathmore Town Council and take over the hospital. If the hospital can continue to be run as efficiently as in the past, the deficit to be met would be a very slight burden on the different municipalities. There are many cases that can be handled in the Strathmore hospital better than at Calgary and with less expense. The money spent in operating the hospital helps both the town of Strathmore and the surrounding districts, more than if spent in Calgary.

There has been a splendid record made as a maternity hospital and the efficiency of our local doctors has been increased and the strenuous work of the doctor with a country practice has been lightened through our hospital service. Lives have been saved, and patients cared for, near their friends and relatives. It is believed that if everyone studied up this matter that there would be an overwhelming public demand for the continuance of hospital service. Let us take over the Strathmore Hospital and make of it a permanent institution.

The hospital has been run through the very unsatisfactory efforts of the various presidents and secretaries and with the support of other members of the Hospital Board, but it would not do better if the secretary's

work could be taken over by the secretary of the New Valley Municipality or the town with proper allowance from the other municipalities concerned. As there is considerable work attached to this position, and further duties should be assumed for the best results. The Strathmore hospital has been run under the provincial hospital regulations and is a government hospital under the Act, receiving fifty cents per patient day from the government and submitting to government inspection, sickness and accident are irregular, but any hospital must have equipment and nurses and a management and this overhead cost is such that few hospitals pay expenses, even the city hospitals are away behind just now. The question is, can we afford to reduce the service to our sick people and will it not cost us more to do what we are called upon to do if we abandon our established and equipped hospital?

The Hospital Board feel that the institution should not be closed without the responsible ratepayers considering the matter carefully. The last annual report shows clearly the details of last year's work, an idea as follows:

|                   |                  |
|-------------------|------------------|
| Expenditures      | \$1450.50        |
| Receipts, fees    | \$664.65         |
| Govt. Grant       | \$71.00          |
| Outstanding Accs. | 727.50           |
| <b>TOTAL</b>      | <b>\$1466.15</b> |

|   |         |
|---|---------|
| Balance receipts over expenditure   | \$35.25 |
| The expenses average about ten dollars per day, which require two paying patients to break even, counting Government grant. |         |
| Patients treated  | 119     |
| Deaths  | 1215    |

If a majority of the people want this hospital continued they can tell their councillors and call public meetings and insist on proper action being taken, otherwise the hospital will be closed by the Board under the impression that the people do not care for this service.

## HOSPITAL BOARD COMMITTEE

## Ladies Auxiliary Social

A very enjoyable social evening was held in the Memorial Hall on Friday evening under the auspices of the Ladies' Auxiliary of the G.W.V.A., to which members of the G.W.V.A. and a number of their friends were invited. The social was held in honour of one of the members, Mrs. H. W. Anderson, who with her husband, is leaving Strathmore shortly.

The first part of the evening was taken up with progressive whist, and after supper the floor was cleared for dancing, which was carried on with much enjoyment till an early hour. The music for dancing was very kindly provided by Mr. and Mrs. Hittle and Mr. Bert Barry.

## U-Go-I-Go-Girls

An interesting and profitable meeting of the U-Go-I-Go-Girls' Club was held at the home of the Misses Margaret and Eva Anderson, May 2, with sixteen members including seven new members present, also four visitors.

The meeting was opened in the usual manner by the singing of O Canada and the reading of The Club Woman's Creed.

After the reading of the minutes the members responded to the roll call with an article made from a flour sack. These articles were both useful and artistic and included tea cloths, aprons, cloth pin bags, etc.

While the Ladies, Mrs. Phillips and Mrs. R. A. Smith were making their decision the usual business routine was carried through, during which arrangements were made for a separate meeting to re-organize baseball.

After the meeting adjourned the following program was given:

Inter-mental—Eleanor Sawyer, Paper—Boethoven and his work, Margaret Anderson, Poet—Misses Sally Wright and Esther Stockton.

A prize for the best article made from a flour sack was awarded to Miss Fairlie for her tea cloth. After this Mrs. Smith gave a talk on the merits of the various articles.

After community singing by the girls a delicious lunch was served by the hostesses of the evening.

Organization of a municipal hospital district is being undertaken in the district of Westlock, where a meeting was held last week. Discussion is at present taking place on the re-organization of the municipal hospital district in the Pincher Creek territory.

Land owners in the South Macleod Irrigation district will vote on May 15, on the issue of bonds for \$2,050,000 to cover costs of construction of their irrigation project. Portion of the bonds of the United Irrigation District, for \$600,000 odd, will be made by the provincial irrigation council on May 5.

2

3

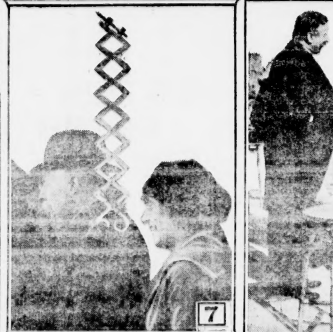

4

5

6

7

8

(1) A band of Tibetan priests at Lamas that greatly assisted in giving a rousing welcome to H. R. H. the Prince of Wales when he landed at Victoria recently. The site of the house and the site of the house was a lovely one.

(2) A handsome bronze memorial erected by the C. P. R. to those of its employees who gave their lives in the Great War. The figure is more than life size and on the base is inscribed the following words: "To commemorate those in the service of the Canadian Pacific Railway Company who, at the call of King and Country, left all that was dear to them, endured hardship, faced danger and finally gave up all rights of rest, by the path of duty and self-sacrifice, giving up their lives for their freedom, and the freedom of those who come after us. It is their spirit which we hope to see in the future." The statue is in the shape of a man in a military uniform, standing with a sword in his right hand and a shield on his left.

(3) A thrilling canoe race. The picture was made at a point where the waters of Lake Ponape converge into one of the streams that find their way into the waters of northern Lake Huron. Lake Ponape is the name of the lake.

(4) Miss Jessie Williams, the young lady who created something of a sensation on a Liverpool landing stage by suddenly changing her mind and hurrying ashore just as the Canadian Pacific liner "Mollie" was about to bring her to Canada to meet her fiancé. She was for the moment welcomed by a feeling of indignation, but later gained sympathy and made the life out in the "Mollie".

(5) The troubled state in Ireland are responsible for a good deal of emigration from that country, and Canada is getting a fair share of these leaving. The emigrants, with their baggage, were photographed while being taken by tender to board the steamer "Lioness" which has returned to Vancouver, with her baggage, and will be taken to the city of Vancouver.

(6) A new and charming photograph of Miss Amelia Galt-Carell taken recently at the Vancouver hotel, Vancouver, B.C.

(7) A hint for the short people. A novel and extraordinary picture arrangement by which three two girls got an excellent view of the Olympic stadium last year despite the fact that the crowd kept them far from the ground.

(8) Germany and Russia are together at Garmisch. Dr. Wirth, the German President, on the left, chatting with M. Tschickler, the chief Russian delegate, second from the right. Between the two stands M. Kiselev and on the extreme right, M. Joffe.

## How's Business?

Advertising, backed up by the right spirit, the right goods and the right service, can rescue a sinking business and will make a prosperous business more masterful in its own community.

When John Wamaker, the Prince of Merchants, began business, he resolved to force matters. He was not content to wait to be found out. He determined to be found out. In short, he advertised. He threw on his business, small as it was, the light of publicity, and the public of Philadelphia entered the shop on which the light shone.

In this community the public is entering those shops on which the light of advertising is falling.

### A WORD TO THE PUBLIC

Be sure of this: those who are using our columns week after week do not give you poorer goods or service, or have a higher price.

Shops which are illuminated by advertising court with full confidence your favor.

Strathmore, Alberta, May 10th, 1922

### TOWN TAXES

Strathmore Town Council, after a prolonged session on Tuesday evening last, decided to leave the rate of taxation at the same as last year.

They could not very well do otherwise. Most of the town's current expenses are administrative, and there is very little reduction in these items. Some saving might be effected in road work, but if the roads into town were left in such shape that country people would have difficulty in getting in during bad weather, the saving would be more than counterbalanced by the loss of business. The roads are not good as it is, and could stand more money than was appropriated, if it was available.

The school estimate stands at the same as last year. Although the debutantes on the schools are pretty well paid up, the number of children attending school has increased to the extent that six teachers are now employed as against five at this time last year.

If another system of assessment had been adopted it would have been possible to bring down the mill rate, but there would be little change in the actual amount paid. It is likely, however, that the town will have to change the system of assessment next year, as the amount at present, \$117,000, leaves very little leeway to work on. The single tax was of good effect at the time it was adopted, as a means of checking speculation, but it requires some modification now.

A discount is being offered for taxes paid before the 20th of June, and it is probable that many will take advantage of the saving thus rendered possible.

o

### PRISON POPULATION INCREASES

In the Dominion House of Commons last week some startling figures were given as regards increase of crime. The statement was only referred to prisons under control of the Federal Administration, and does not include Province or city jails.

The statement is as follows:

Population, March 31, 1920, 1,531; March 31, 1921, 2,539; November 30, 1921, 2,571. Most of this increase has taken place in the past few months and shows every sign of continuing in increasing ratio. In the month of November last, 93 was the total increase of all penitentiaries.

\$123,000—Increase asked for completion of buildings now under construction or urgently required, due altogether to the increase in population. Less than four years ago our population was 1,463, and it is about 2,600 today.

The increase will, of course, be partly due to increase of population. It may also be partly due to new legislation. It might also, of course, be due to increased perversity of Canada's population, but we trust that this is not the case.

In replying to a question by Mr. Coote, member for Macleod, Sir Lomer Gouin said that in the west two-thirds of the penitentiary inmates were foreign born and in the east one third.

Among one of the claims that were made for prohibition was that it would decrease the amount of major crime, but apparently it is not working out that way.

### THE RADIO

The latest scientific invention, the radio, has only come into prominence lately in Western Canada. The Government Air Station at High River was the first in the field, and the two Calgary newspapers now have broadcasters, and though they have not yet settled down to business, will probably be the means soon of disseminating some useful information.

There is practically no doubt that in a few years time it will be possible to phone all over the world, and another step will have been taken in the annihilation of distance, and we hope that it will be a step in the direction of world peace.

The two Calgary newspapers have been engaging in wordy reprimandations in their columns to their respective broadcasting installations. We hope that when they both get their broadcasters working they will not continue the wordy warfare in the air, or some poet will paraphrase Tennyson's verses thus:

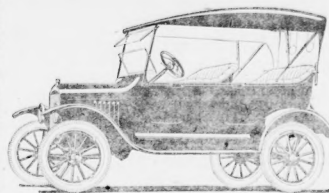

"For the heavens were filled with shouting,

Though the words of sense were few,

As the rival Calgary dithies

Grappled in the central blue,"

and so forth.

### CARLELAND NOTES

The regular monthly meeting of the P. H. Club was held at Mrs. James Nelson's, Thursday, May 6th. There were about twenty members present and all enjoyed a splendid time in discussing club, local, and universal topics of the day. As could be expected, enthusiasm waxed highest over the tea eggs. Madame Mose and Patrick are to be the hostesses next month.

Miss Gertrude Addelman is spending her vacation at home preparatory to going on with her nursing vocation. Gertrude graduated last year from the Calgary General Hospital, but the honours for her class were withheld until the graduation of the 1932 class. She was awarded the silver medal for her splendid work, and the community tender her sincere congratulations and best wishes for the continuance of her hard earned success.

### CEAUTEAU

She has a head, and a heart, and a helping hand:  
Eager to ease souls' sorrows and pains.  
We need more such ones in this great wild land,  
Who give their "all" for service and think not of gain.

Thus we are thankful and gladly commend  
The virtues of one who have known for so long;  
For out in the highways and byways  
She'll "hold high" the star of sweet service and song.

All extend their sympathy to Mr. and Mrs. Martin Van der Velden and family in the loss of their little daughter and sister.

Mr. and Mrs. Sam Nelson recently took their little boy to the hospital. We hope he will soon improve.

Mrs. Bill Brown is about again after her recent illness. The Field family are also better.

Carletonland business men, when not busy, frequently indulge in the good old game of quills. These shows still hold their useful place and show the indispensability of the horse, despite the rapid progress of science in all directions.

### HERVEY NOTES

Mr. Geo. Kraus' family moved to Calgary Saturday evening to call on Geo. Jr., who is getting along as well as can be expected. They returned in the wee small hours in time to extract the latest full of customers on Sunday morning.

We are glad to know that George is recovering.

Mr. Frank Fraser's wife and daughter called at the "Tea Pee" lunch on Sunday.

Several of the farmers of the district are taking advantage of the free trees put out by the C.P.R., which will help to make the farm look more homelike.

Mr. Fraser and family called at the Mackay home on Sunday evening.

J. P. Lowry has recently purchased four Holstein calves from the C.P.R. This now gives him a nice little bunch of twelve almost purebred Holsteins, which, in a couple of years will make a good start in dairying.

Mr. H. K. H. Chamberlain and C. Hagan are the first men in this locality to finish wheat seedling, having in quite a large acreage and all successfully.

Mrs. John Kent had quite a seizure on Wednesday last, hurting one of her limbs so badly that it was deemed advisable to call her daughter from college to attend her, and at the time of writing has not improved.

Mrs. Julia Scholter sustained an injury by a fall, to the extent that she was taken to Calgary in a car by Mr. Chas. Voss, but is improving nicely.

### Council Meeting

(Continued from front page)

The public works appropriation of \$3000 came in for much discussion. \$300 of the amount was for grading of a new road to connect up second street with the Calgary road, and this raised considerable objection. It was finally agreed to leave the estimate as it stood, but to do any grading till fall.

### Vacant Lots

It was agreed that anyone who wanted a vacant lot for gardening purposes could have same by paying the improvement taxes on the lot.

### No Policeman This Summer

Several applications were read for the position of town policeman, which will become vacant on the 15th of this month, but it was finally agreed not to appoint a policeman for the present.

It was decided to accept the offer of Mr. Oliver Wright to act as janitor of the town hall, and keep the engines in shape, etc. in exchange for the use of the living rooms, with fuel and light.

He also offered to do other work for the town on a set basis and this was accepted.

### Town Lands

The last matter to be taken up before Council disposed was the question of lands which had reverted to the town. It was agreed to hold a special meeting to discuss this matter, but in the meantime to advertise the 114 acres of land known as the Bradley Farm which had come into the possession of the town, for sale.

### GRAIN PRICES

May 9th, 1922

The following grain prices are for grain by wagon-load at Strathmore, not track prices, and for information of the public only. Figures are kindly supplied by Mr. Dymond, of the Robin Hood Elevator.
